Dear Parents,

Re: Measles, Shingles and Chicken Pox

Please may we ask your co-operation in a vitally important matter. Two of our pupils are receiving medical treatment and this puts them at serious risk if exposed to measles, shingles or chicken pox.

If your child is suspected of having, or has been in contact with, any of these illnesses, please let us know immediately.

Your child is not at risk whatsoever from this situation, however, the health and well-being of the children who are at risk does depend on your co-operation and the co-operation of all of our parents.

Thank you for your support.

Yours faithfully

Maria Parker
