Extra-curricular

Timetable

Summer 2021

“Discover your talents”

In school there are lots of activities that take place during the week that we want you to know about and get involved in. This is your guide to where you can find out about all the clubs and support on offer to you before school, during lunchtime and after school. This summer we are encouraging you to try something new and develop your character. You never know, you may discover talents you never knew you had!

As you can see when you look through the timetable, our school offers different ways in which you can go above and beyond to discover your true potential and talents:

Support - providing resources and facilities to allow you to achieve your potential in your subjects, from offering one-to-one guidance from members of staff, to the use of computers and facilities to produce your best work.

Enrichment – providing opportunities for you to discover talents you never knew you had, from cookery to art, to learning how to use Photoshop in Media Club. You could even try different ways to keep you mentally and physically healthy through the wide range of sports clubs on offer after school and at lunchtimes.

At Christ the King Catholic High School we believe that taking part in activities outside the classroom is important for pupils to build positive relationships, develop self-esteem and lead an active and healthy lifestyle. The huge range of extra-curricular opportunities our staff provides allows you the opportunity to develop your character along with essential life skills that you can use in the next stage of your lives. In this booklet you can identify the characters that each club develops. Go through the timetable now and highlight the clubs that you would like to try out and.....

“Discover talents you never knew you had”

Making our clubs safe

To enable our school to provide extra-curricular clubs, there are certain things you will find different to the way they are usually run. This page will explain the changes in place. If you do have any questions, please ask a member of staff.

1. Clubs will take place in year group Pods where necessary

Each year group will have their own selection of clubs on offer. They will take place in the designated rooms for your Pod unless stated differently in the timetable.

2. All after-school clubs will take place from 3.00 pm. If you are in KS3, you must make your way to the area below when the bell rings at 2.45 pm and wait there until 3.00pm. You can then make your way to your club:

- Year 7 - Covered area / dining room
- Year 8 - Senior dining room
- Year 9 - Main hall

3. Please make sure you have informed a parent/guardian that you are staying at school to attend an after-school club and have organised how you will be getting home safely.

You may notice that some of the clubs that have run in previous years are not running at the moment. This will be because some clubs involve pupils from different year groups in order to run. Don't worry; we will make these clubs available to you again as soon as we can. Maybe this is the opportunity you need to try something different.

Characters:

Team players, friendly, reflective, concerned for others.

The Benefits of Extra-curricular Activities

1. Improved Academic Performance

Lots of studies have been conducted on the relationship between extracurricular activities and academic performance, and they all show that pupils who participate in them have higher grades, more positive attitudes toward school and higher academic aspirations.

2. Explore Interests and Create Broader Perspectives

When you participate in multiple different activities, you'll get the opportunity to explore a range of interests and unlock passions you never knew you had!

3. Higher Self-esteem

The more you achieve success through activities you're passionate about, the more your self-confidence will improve.

4. Social Opportunities

Let's be honest, making friends can be hard but one of the easiest ways to make friends is through extra-curricular activities!

Each extra-curricular club you engage in provides you with another opportunity to expand your social network.

5. Productive Breaks

Extra-curricular activities give you something fun to do aside from school. It also gives you the chance to explore your passions and to discover things you may be interested in beyond academics while taking some time off studying.

Take the much needed break; you deserve it!

6. Essential Life Skills

On top of all of the benefits of extra-curricular activities we already talked about, one of the greatest advantages extra-curricular activities give's you is life skills.

These skills include (but are not limited to):

- Goal setting
- Teamwork
- Time management
- Prioritisation
- Problem solving
- Analytical thinking
- Leadership
- Public speaking

The more you push yourself in your extra-curricular endeavours, the more you'll develop these skills. If you're passionate about engineering, you might join the STEM Club where you'll develop teamwork, problem solving and analytical thinking skills.

However, you could take that passion even further and create your own coding club where you'll develop goal setting, time management, prioritisation, leadership and public speaking skills.

7. CV's

Without much previous work experience, one of the only ways hiring managers can assess your ability and work ethic is through your extra-curricular activities.

For example, if you were on a debating team, the manager would know that you work well with others, can argue a point professionally and have public speaking experience - all fantastic skills to have in the workplace!

8. University Applications

Universities want to see that you've gone above and beyond in your intended area of study and have made a difference and/or excelled in your field.

If you want to study Chemistry, a university is more likely to accept you if you've joined a Chemistry club.

“Whether or not you discover your talents and passions is partly a matter of opportunity. If you've never been sailing, or picked up an instrument, or tried to teach or to write fiction, how would you know if you had a talent for these things?”

Ken Robinson
